DEPARTMENTAL LEGAL SCIENCE IN THE SYSTEM OF THE BODIES MIA UKRAINE: GENERAL THEORETICAL APPROACHES

Paper considers general theoretical approaches to the definition of the place and role of departmental legal science in the system of bodies of the Ministry of Internal Affairs of Ukraine.

The state of science development in Ukraine is analyzed; legal science, its elements and levels are characterized.

The concept of legal science, certain features and areas of its application in the system of bodies of the Ministry of Internal Affairs of Ukraine are considered.

It is noted that science in the system of bodies of the Ministry of Internal Affairs of Ukraine is integrated into the existing system of scientific, scientific-technical and scientific-organizational activities on the basis of a single legal and regulatory framework.

From the point of view of an administrative and legal regulation, legal and regulatory framework for such activities is a code of administrative and legal rules aimed at the regulation of social relations arising in the process of formation and implementation of departmental policy in the field of scientific and scientific technical activities in order to optimize the use of scientific potential while conducting scientific research and scientific and technological (experimental) developments, as well as the creation of conditions for the improvement of their efficiency and implementation of the achievements of science and engineering into the practical activity of the bodies of the Ministry of Internal Affairs of Ukraine.

By description of the legal and regulatory framework of the administrative and legal regulation of social relations in this sphere, the main directions of its improvement are suggested.

This led to the conclusion that the main aim of further improvement of scientific, scientific and technical activity in the system of bodies of the Ministry of Internal Affairs of Ukraine is to ensure concentration and increase of the efficiency of the use of scientific potential for ensuring their activity by creating an effective mechanism of an interaction of the subjects of all forms of scientific activity in the system of bodies of the Ministry of Internal Affairs of Ukraine, implementation of an effective and efficient system of coordination of this activity, its planning and control, legal regulation, as well as the creation of tax everyday conditions for the implementation of the results of scientific research into practice.

Keywords: science, jurisprudence, administrative and legal regulation, departmental level, state policy, Ministry of Internal Affairs of Ukraine.
